

What are Locations and Basic Directions?

Worksheet

Locations identify places (home, school, park) and directions show how to move (forward, backward, left, right). Key words: here, there, north, south, near, far, between.

Questions

1. Where is the bank? — Choose the location answer.
A) It's on Main Street.
B) It's running quickly.
C) It's very interesting.
D) It's happy and sunny.
2. Which word means 'the space between two things'?
A) Between
B) Beyond
C) Before
D) Below
3. How do you ask for directions politely?
A) Where is the station?
B) The station is lost.
C) Find the station now.
D) Stations are everywhere.
4. Compass directions: north is opposite to...
A) South
B) East
C) West
D) Up
5. How do you ask where the library is?
6. Give directions from home to school.
7. Describe the location of the café.
8. Define: What does 'location' mean?
9. Define: Name four compass directions.
10. Define: What are positional prepositions?

Answer Key

1. A) It's on Main Street. — Only 'It's on Main Street' describes a location. The others describe actions or feelings.
2. A) Between — 'Between' means in the space separating two things. 'The shop is between the bank and the café.'
3. A) Where is the station? — 'Where is the station?' is the correct polite question form to ask for directions.
4. A) South — North and South are opposite compass directions. East and West are also opposites.
5. Use: 'Where is the library?' Or: 'Can you tell me the location of the library?' Answer: 'It's on Main Street, near the park.'
6. Start: 'You are at home.' Then: 'Turn right out of your driveway.' Next: 'Go straight for two blocks.' Finish: 'The school is on your left.'
7. Use prepositional phrases: 'The café is between the bank and the shop.' 'It's next to the main road.' 'It's in the city centre.'
8. The place or position of something. Example: 'The library's location is on Oak Street.'
9. North, South, East, West. Used to describe large-scale location and direction.
10. Words like 'in', 'on', 'under', 'beside', 'between' that describe where something is relative to something else.
