A) Geography
B) Mathematics
C) History
D) English
4. What does Geography focus on?
A) Numbers
B) Literature
C) Earth, climate, and cultures
D) Chemical reactions
5. Talk about your favorite subject.
6. Describe what you do in different subjects.
7. Ask about subject schedules.
8. Define: Mathematics
9. Define: English
10. Define: Science

Answer Key

1. B) Mathematics — Mathematics is the study of numbers, algebra, geometry, and calculations.
2. B) Living organisms — Biology is a science subject that studies living things — plants, animals, and humans.
3. C) History — History is the study of past events, people, and civilizations.
4. C) Earth, climate, and cultures — Geography studies the physical world — mountains, rivers, climate, and human cultures in different places.
5. My favorite subject is English. I enjoy reading and writing. The teacher gives interesting assignments.
6. In Mathematics, we solve equations. In Science, we conduct experiments. In History, we study past events.
7. What time is Geography? Do we have Physical Education today? When is the next English class?
8. The study of numbers, patterns, and calculations.
9. The study of language, literature, and writing.
10. The study of natural phenomena, biology, chemistry, and physics.
