

What is House and Home?

Worksheet

A house is a building for living; home is a place of residence with personal and emotional significance. Both involve shelter, but home carries meaning beyond the physical structure.

Questions

1. What is the main difference between house and home?

- A) House is physical; home includes emotional attachment
- B) They are the same word
- C) A house is always bigger
- D) Home is only outdoors

2. In French, 'maison' means...

- A) Only a large house
- B) House or home (depending on context)
- C) A specific room
- D) A neighborhood

3. What is 'chambre' in French?

- A) Living room
- B) Kitchen
- C) Room (especially bedroom)
- D) Bathroom

4. Can a house not be a home?

- A) No, they are identical
- B) Yes — a house is just a building; home requires belonging
- C) Only if it is empty
- D) Never

5. Define: What is a house?

6. Define: What is a home?

7. Define: French word for 'house'?

Answer Key

1. A) House is physical; home includes emotional attachment — A house is a structure; a home is that structure plus the emotional connection.
2. B) House or home (depending on context) — 'Maison' refers to both the physical house and the concept of home in French.
3. C) Room (especially bedroom) — 'Chambre' is a room, most commonly a bedroom.
4. B) Yes — a house is just a building; home requires belonging — A house can be impersonal; home requires emotional connection and belonging.
5. A building or structure designed for people to live in.
6. A place of residence where someone lives, often with emotional belonging.
7. Maison (house or home, depending on context).
